Board of Directors

St. Joseph's Hospital Foundation Board of Directors set the pace for a year filled with successes. Each Board member is committed to the mission of St. Joseph's Hospital and Health Center, and serves with a heart of stewardship. We thank them for their dedication to ensuring that the care at St. Joseph's Hospital remains accessible and affordable to all members of the community.

BUILDING

Firm Foundations

Recently St. Joseph's Hospital and Health Center's Board of Directors and the St. Joseph's Hospital Foundation Board have boldly stepped forward to embrace change and have gone as far as utilizing it as one of the pivot points of upcoming strategic planning. Though generally, each of the groups would be addressing far different issues, currently they are focused on like matters.

Alignment has been a key goal of both Boards. Physician alignment, employee alignment and community alignment are all areas that have increased in focus. Times have changed greatly in the world of healthcare. Nationwide hospitals struggle with inadequate reimbursement for services while trying to provide a high level of care to their patients. Quality care is necessary and requires a commitment to investing in top-notch technology, well-trained and qualified staff and a line of services which best meet the needs of the community. St. Joseph's Hospital and Health Center's Hospital Board of Directors and Foundation Board are moving forward purposefully to address these challenges.

The Hospital's Board of Directors is developing its plan with an emphasis on creating firm foundations for future growth and on-going financial stability. Members have reached out to Catholic Health Initiatives (CHI) and built strong relationships with the regional and national board members. Additionally, they have utilized the knowledge base available on the city and county level government while inviting input from community leaders and area residents. These relationships have netted the purchase of a parcel of land intended as the future site of a new hospital, as well as guidance to services that best meet the needs of those who make this area their home.

In a supporting role, the Foundation's Board has focused on helping build the resources that best support the goals of the hospital. The Foundation's plan targets increasing our fundraising capacity to support the growing capital and service area needs of the hospital. St. Joseph's Hospital and Health Center is an essential benefit to our community. Our goal is to develop partnerships with every business, organization, group and individual who wishes to support our hospital and its mission.

Reed Reyman, President/CEO, *St. Joseph's Hospital and Health Center*

Jodi Bosch, Interim Director of Foundation
St. Joseph's Hospital and Health Center

TAKING CARE OF our Community

St. Joseph's Hospital and Health Center is a non-profit organization. A requirement to maintain that status is to provide service to the community in which the organization is set. Charity Care is one of the many ways that St. Joseph's Hospital gives back to the community.

Last year, St. Joseph's Hospital provided \$987,905.00 in Charity Care to those who qualified. Individuals who are eligible to receive Charity Care are what one may consider those who "fall through the cracks." Usually they have a job and are making a living. However, their job generally does not offer insurance and they cannot afford it on their own. They often make too much to qualify for services like Medicaid. When a major medical event occurs in their life they cannot afford to

pay for it without assistance. Many of the recipients of Charity Care insist on paying as much as they possibly can, and are uncomfortable accepting the support.

Further, the Mission of St. Joseph's Hospital and Health Center and Catholic Health Initiatives is "to nurture the healing ministry of the Church by bringing it new life, energy and viability in the 21st century. Fidelity to the Gospel urges us to emphasize human dignity and social justice as we move toward the creation of healthier communities."

In brief, our mission is to take care of the people who come through our doors and to reach out to those who do not, to make our community a better place for all of us to live.

Thank You
for your ongoing
support and
commitment to
St. Joseph's
Hospital and
Health Center
and to the
FOUNDATION

We hope you enjoy reading
our headlines for 2010.

ST. JOSEPH'S HOSPITAL DONATES TIME TO LAUNDRY FOR

COATS OF KIDS

St. Joseph's Hospital staff laundered over 1000 coats to be donated to "Coats for Kids" this last September for area kids in need.

ST. JOSEPH'S SURGICAL CARE CLINIC GETS New Technology

Patients save time and money

The Hyfrecator 2000 sounds like something out of a futuristic science fiction movie, but in fact, it's the newest piece of technology in St. Joseph's Hospital and Health Center's Surgical Care Clinic. Although it's not futuristic, it is cutting edge and very scientific. "We jokingly refer to it as "the lumps, bumps, mole, cysts and warts remover," says Reine Kulish, Director of Clinic Administration at St. Joseph's Hospital. "Hyfrecator is kind of hard to say."

Whatever it's called, the new technology offers a wide variety of services that simplify and enhance patients' visits to the Surgical Care Clinic. Its main purpose is to cauterize tissue to stop bleeding caused by surgical procedures, so that patients are able to have minor outpatient office procedures and return home. The Hyfrecator 2000 saves patients time and expense, and reduces scheduling challenges where otherwise multiple visits would be necessary.

"It will often allow a procedure to be done in a single visit, or even possibly during a consultation," Kulish explains. "Naturally, each case is individual, but it's wonderful to have the option and the capability."

Additionally, it will allow simple outpatient procedures and surgeries that once required scheduling up in the St. Joseph's Hospital and Health Center Surgical Unit, to be performed right inside the St. Joseph's Surgical Care Clinic, another convenience to patients.

More involved surgeries and procedures such as appendectomy, gall bladder, colonoscopy, breast biopsy and other general and specialized surgeries will continue to be performed in St. Joseph's Hospital and Health Center's Surgery Unit.

If you'd like to know more about the Hyfrecator 2000, you can call St. Joseph's Surgical Care Clinic at 701-456-4258. You can visit the clinic with or without a referral.

ST. JOSEPH'S EMPLOYEES
CONTRIBUTE TO

Amen Food Pantry

Each year the Christian Effectiveness Committee which is part of the Mission Department at St. Joseph's Hospital, sponsors a food drive for one of the local non-profit agencies or organizations in need. Employees of the hospital donated several boxes of food this year to Amen Food Pantry.

In July, the Foundation hosted 144 golfers and more than 20 volunteers at Heart River Golf Course for the Foundation's 19th Annual Golf Sports Classic. It was perfect golfing weather as the group of golfers headed out for the day filled with fun and lots of sun. The 2010 Golf Sports Classic raised over \$13,000 to support medical equipment in our Surgical Care Clinic and also syringe pumps for Babykind. Save the date for our upcoming event on July 9th, 2011.

FOUNDATION PURCHASES

New lab equipment

St. Joseph's Hospital and Health Center's new GeneXpert analyzer is on-board and running, which makes St. Joseph's the first hospital in the region to offer molecular diagnostics and advanced on-site laboratory tests to detect the DNA of MRSA (Methicillin-resistant Staphylococcus aureus), Clostridium difficile (C-diff) and Vancomycin-resistant enterococci (VRE), in mere hours of receiving the specimen. This method provides analysis of infectious disease at least 12 times faster than previous methods.

"Current infectious disease testing involves a typical turnaround window of 24-48 hours," explains Crystal Robinson, Director of Laboratory and Respiratory Care at St. Joseph's Hospital and Health Center. "MRSA, C-diff and VRE now will be tested in less than 2 hours of receiving the specimen using the GeneXpert. This faster and more accurate molecular testing platform is a welcome addition to our patient care services."

The GeneXpert tests for the presence of bacteria, including that of infectious life-threatening diseases like MRSA, which enables doctors to make quicker and more informed treatment decisions. Before molecular testing, samples were used to grow lab

cultures, which could take several days to produce results. In the case where a patient's infection must be treated immediately reduce risk. Waiting 24 hours for a sample to grow and then allowing up to an additional 24 hours to identify the bacteria, became an unacceptable wait time.

Molecular testing is a different way to identify bacteria. The GeneXpert takes a DNA sample and then sets off a chain reaction to quickly produce millions of copies of it. As the quantity increases, color indicators identify the bacteria present in the sample. Within an hour or two, lab results can be provided to the physician so an accurate diagnosis and course of treatment can be quickly implemented.

The GeneXpert eliminates multiple challenges. For example, since doctors now have quick and correct answers to their patient's infection status, prescribing antibiotics that might not work, or that may cause severe or unwanted side effects, or quarantining a patient unnecessarily, can be avoided. It also reduces the costs in terms of health and finances. Additionally, doctors can now be armed more quickly and accurately with the information they need to begin patient treatment.

"It's a nice tool because it allows us to take care of our patients faster," states David Kuylen, MD. "It improves patient health outcomes by getting us results in a couple hours rather than a couple of days. A primary benefit is that it allows us to give patient's answers in a quicker time frame and to reassure them and put their minds at ease. It's important to keep "the care" in patient care, and this new technology helps us to do that."

Lab staff at St. Joseph's Hospital and Health Center has been trained in the use of the GeneXpert and was prepared for doctors to begin requesting molecular testing March 1. If you would like more information about the GeneXpert you may call 701-456-4476.

CHARITY BALL GUESTS MINGLE Old Hollywood Style

The 2010 Charity Ball was a glamorous event and an overwhelming success. With an Old Hollywood theme of red, black and white, and cardboard cut-outs of James Dean, Marilyn Monroe and John Wayne, guests could be seen mingling in costumes and outfits that ranged from flappers and saloon girls, to mafia dons and dashing gentleman. There was also the usual combination of stunning ensembles and dapper suits, with a strong dash of color added into the mix. Over 250 guests attended.

Cigarette girls walked among guests offering candy cigarettes and chocolate cigars with the added bonus of a ticket for a raffle good for a trip to Cancun. The hours that Charity Ball committee members dedicated to decorations, menu planning and design, paid off in full with numerous compliments of approval and appreciation for their efforts. Centerpieces of old-fashioned film reels and film were accented with red plumes nestled in elegant white gladiolas.

The Auction Committee took a bow for the varied selection of items they collected for the Silent and Live auctions, and individuals and businesses in the community received a well-deserved salute of recognition for their creativity and generosity in providing items, time, services and monetary donations.

In addition to the fun turn out of community members, the St. Joseph's Hospital and Health Center Senior Management team, medical staff, hospital staff, and the dedicated Hospital and Foundation Board members were in attendance.

Bidding was snappy and entertaining, as pictures of the items were simultaneously broadcast on a screen and carried

around by lovely Charity Ball Committee members.

The Elk's provided a delicious meal which included edible flowers that really tickled some of the guests who had an entertaining time eating them. The evening finished off with the return of a back-by-popular request band, "Betty Does." The dance floor stayed full the entire night.

The goal of the event was to raise dollars toward a fetal monitoring system for Babykind at St. Joseph's Hospital and Health Center. The system monitors mother and child during labor and delivery, allows the physician instant access to the patient's progress, and enhances positive outcomes for both mother and child.

"We're so pleased with every aspect of the Ball," says Jodi Bosch, Development Coordinator. We've heard repeatedly how much fun everyone had, how delicious the food was, how great a selection of auction items we provided, how impressive the decorations were, and at the heart of it, it's our pleasure to provide it as a committee and a Hospital for our community. It's exciting to work in partnership with our community to ensure the quality healthcare that we all deserve."

Next year's plans for the Charity Ball are already in the works, but for now everything is hush-hush. One thing is no secret, the date is set for November 19, 2011. If you would like information about supporting or attending the Charity Ball, you may call the St. Joseph's Hospital and Health Center Foundation Office at 701-456-4363.

with gratitude

TO OUR DONORS

The following donors generously supported St. Joseph's Hospital Foundation during calendar year 2010 (January 1, 2010-December 31, 2010). Their contributions helped the Hospital continue its tradition of excellence by providing funds to purchase new equipment, support healthcare education and community health programs and provide care for those in need. It is with pleasure and deep gratitude that we recognize the following donors:

SALUTE TO Volunteers

The Volunteers Services Department at St. Joseph's Hospital and Health Center recruited 44 junior and adult volunteers in 2010, and brought the total number of volunteers at St. Joseph's to over 200. Based on a national standard, the volunteers contributed more than 15,000 hours in 2010 at a contribution of \$257,504.12. The Volunteers at St. Joseph's Hospital fulfill many important roles and are a critical component

in caring for our patients and their families. Additionally, over 6,000 hours were contributed by college students and medical students interning and completing rotations this last year. Volunteers gave not only of their time, but also of their personal resources. In the last two years, they purchased over \$13,000 in hospital needed items. For more information about our Volunteer Program, call 456-4463.

Every donation you make to St. Joseph's Hospital Foundation makes a difference in the quality of healthcare and services we are able to offer. Here are a few examples of how we put our donor dollars to use this past year:

- Hyfreator 2000 for Surgical Care Clinic
- Syringe pumps for Babykind
- Replacement of current air-conditioning unit in Emergency Department
- Scholarships were awarded to four of St. Joseph's employees in the total amount of \$8000.00
- Protective glass in Emergency Department and ICU
- Refrigerator in Laboratory Services
- GeneXpert machine for Laboratory Services

St. Joseph's Hospital Foundation

30 SEVENTH STREET WEST DICKINSON, ND 58601

FIRM FOUNDATIONS *Rooted in faith*

The St. Joseph's Hospital Foundation was established in 1983 to benefit the health care mission of St. Joseph's Hospital and Health Center. St. Joseph's Hospital Foundation is governed by a Board of Directors comprised of community leaders. The Foundation supports programs and projects related to the improvement of healthcare in our communities. The ultimate recipient of your participation could be a member of your family, a close friend, or a neighbor receiving care at St. Joseph's Hospital and Health Center.

St. Joseph's Foundation is a tax-exempt corporation pursuant to Section 501(c)(3) of the Internal Revenue Code. Gifts to the Foundation are tax deductible to the extent allowed by law. Please contact Jodi Bosch or if you'd like more information about making a tax deductible donation to St. Joseph's Hospital Foundation at 701.456.4363

WAYS TO *give*

St. Joseph's Hospital Foundation Offers a Variety of Ways to Donate

As you contemplate charitable plans, you want to be sure that your favorite charity benefits to the highest degree possible. In addition to gifts of cash, donors may provide support to the Foundation and personally benefit from their contributions in other ways. We would be pleased to talk with you about the many giving options.

- Real Estate
- Personal Property
- Life Insurance
- Bequest
- Gift Annuity
- Charitable Remainder Trusts (CRTs)
- Publicly Traded Stocks or Securities

Deferred giving, such as a bequest or charitable trust, is one of several available opportunities to contribute to the St. Joseph's Hospital Foundation. Deferred giving allows for immediate tax and estate planning benefits and is an attractive vehicle for donors who need the ongoing income from those assets or trusts. We thank you for considering investing in the future of our community's health by considering St. Joseph's Hospital Foundation as a beneficiary of your estate.

Professional planning allows you to make a larger gift now and witness the impact of your gift during your lifetime.

Contributions are tax deductible and all contributions are officially acknowledged by the Foundation. For further information about planned giving opportunities, please contact St. Joseph's Hospital Foundation at 701-456-4363.

The Foundation staff cannot offer legal advice concerning tax benefits and legal documents. The Foundation encourages you to seek advice from a financial planner or attorney. Please let us know if assistance is needed in selecting a professional advisor.
